

## FH:01 PROWAY

**FH:01™  
PROWAY**

### **Product presentation** (max 100 words)

FH:01 PROWAY, specifically designed for fitment of steer axle, provides :

**Safety:** on long journeys safety is always the top priority, thanks to specially-designed tread patterns, that guarantee responsiveness, grip and traction on wet and snow-covered roads.

**Efficiency:** tyre feature a low rolling resistance and high mileage to guarantee an excellent total cost of ownership.

**Durability:** the new design concept provides improved durability and optimized even wear distributed throughout the tyre's life.

### **Description of application** (50-70 words)

Product designed to provide low fuel consumption and total cost of ownership optimization. The best balance between mileage and fuel efficiency is found in long distance and highway routes.

### **Product Feature** (50-70 words)

Superior handling and snow grip performance are provided by the the innovative wave sipes design and 3PMSF markings enhancing maximum performance in all weather condition.

Great durability and retreadability are enhanced by ejectors at the bottom of lateral grooves to prevent stones trapping enhancing casing resistance.

Optimal even wear and higher mileage through RSR Rotated Shoulder Rib technology (Pirelli patent) which allows a correct distribution of footprint contact pressure.
